WHITE PRECAST CONCRETE

MONARC™

MONARC™ Mascarpone

WHITE PRECAST CONCRETE

INFORMATION:

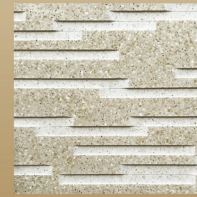

Monarc Mascarpone is a refined blend of natural white aggregates, sands and white cements. Engineered together these locally sourced ingredients create the beautiful structural 40mpa white concrete for use in precast building components including walls, columns, beams and stairs...

The luxurious light hues of Monarc Mascarpone promote the reflection of light, opening up and highlighting living spaces. Mascarpone boasts high aesthetic value adding value to the most discerning design palettes and a respectful belonging of nature's finest materials.

OPTIONAL FEATURES & BENEFITS:

- Suitable for both interior and exterior environments
- White Concrete provides a solid base for vibrant and dynamic oxide colour enhancements
- Can be integrated together with multiple Monarc finishes providing perfect harmony and balance between concrete colours, textures and decorative detailing.

SPECIFICATION:

Colour : Monarc Mascarpone 0016
Texture : Monarc Diamond Honed 5000
Detailing : Nil.
